# FLEXI GROUP OF COMPANIES

## MALAYSIA

**Johor Bahru**
- **FLEXI COMPONENTS SDN BHD**
  - Lot 302, Jalan Hang Lk Nita, Taman Gamuda.
  - 81200 Johor Bahru, Johor, Malaysia
  - Tel: +60 7 335 4458
  - GPS location: 1°31’24.21”N, 103°45’50.76”E

**Kuala Lumpur**
- **FLEXI COMPONENTS (KUALA LUMPUR) SDN BHD**
  - Lot 760, 7878-7887, Jalan Tuanku Baku 1,
  - 40470 Shah Alam, Selangor Darul Ehsan, Malaysia
  - Tel: +60 3 5162 8648
  - GPS location: 3°00’07.13”N, 101°29’38.25”E

**Kedah**
- **FLEXI COMPONENTS (KEDAH) SDN BHD**
  - Plot 86, Jalan PKN 2,
  - 08000 Sungai Petani, Kedah Darul Aman, Malaysia
  - Tel: +60 4 442 2328
  - GPS location: 5°39’5.01”N, 100°32’2.94”E

## SINGAPORE

- **FLEXI COMPONENTS PTE LTD**
  - No. 1, Bukit Batok Crescent,
  - #04-49 Wcega Plaza,
  - Singapore 658064
  - Tel: +65 6742 0570
  - GPS location: 1°21’18.05”N, 103°45’33.30”E

## INDONESIA

### Jakarta
- **PT. FLEXI COMPONENTS**
  - Jln. Cendana Raya Blok F8 No. 22 & 23,
  - Kawasan Industri Delta Silicon 3,
  - Kecamatan Cicendo,
  - Kabupaten Cikarang Selatan,
  - 17550 Jakarta, Indonesia
  - Tel: +62 21 2957 7622
  - GPS location: 6°14’39.73”N, 106°58’25.38”E

## VIETNAM

### Hanoi
- **FLEXI COMPONENTS (VIETNAM) CO. LTD.**
  - Lot 38G2, Quang Minh Industrial Zone,
  - Quang Minh Commune, Bac Ninh District,
  - Hanoi, Vietnam
  - Tel: +84 4 3586 0698
  - GPS location: 21°11’37.44”N, 105°45’57.34”E

Quality Nameplates and Innovative Solutions

Nameplates, Front Panels & Graphic Overlays
Die-cutting of Electro-Mechanical Components
Insulators, EMI/RFI/ESD Shields & Gaskets
Fabrication of Resilient Materials
Customized Adhesives & Labels
Wire Harness Assemblies
About Flexi

Service, flexibility, divergence

Flexi’s competitive advantages stem from its flexibility and its unique Flexi Culture. We define ourselves more as a service company rather than just a manufacturing entity. We devote ourselves to our customers’ long term success and pride ourselves in our hardworking culture.

Corporate Philosophy

We aim to provide to our customers, in a cost-effective manner, the widest range of quality products and services possible. Through quality and responsiveness, we gain their satisfaction and confidence.

About Flexi Components Profile

Flexi Components was founded since 1995 with the belief that it has to be through high quality and cost-effective products, together with excellent services, that will help us contribute to our customers’ success. We truly believe that our success depends on yours. Since then, we have gone from strength to strength. From a humble beginning of 20 people, the same belief is now shared with over 600 dedicated employees world-wide and we pride ourselves in having international presence in Singapore, Malaysia (Johor Bahru, Kuala Lumpur and Kedah), Indonesia (Jakarta) and Vietnam (Hanoi). Since 1999, we have also diversified from manufacturing of electro-mechanical components into offset, letterpress printing, hot-stamping, screen-printing and wire harness assembly.

Today, we are a specialized manufacturer offering total graphic interface solutions ranging from nameplates, graphic overlays, labels, adhesives, LCD/LED window applications etc. and also the fabrication of electro-mechanical components such as electrical/heat insulators, EMI/RFI/ESD shielding, foams, felts, spacers, rubber foot, gaskets, self-adhesives and many other types of resilient materials customized to our customers’ specifications. We also provide customized wire harness assemblies.

Vision

Flexi aims to be the leading global supplier for companies requiring top quality manufacturing of components and products.

Mission

Flexi’s mission is to be a world class manufacturer of top quality graphic interface solutions, die-cut components and wire harness assemblies.
Reputation For Quality

Quality has always been our top priority. We understand the importance of achieving both quality and precision in our products and services. Flexi Components’ track record in delivering reliable and quality products & services consistently earned it the prestigious ISO 9000 certification. A rigorous quality assurance program ensures that our fulfillment will meet our customers’ requirements.

Leadership through Innovation
Every product presents unique challenges: size differences, environmental exposure and surface conditions. We, at Flexi, continuously challenge ourselves to offer innovative approaches in studying into the material employed and the processes involved to offer the most cost-effective and efficient solutions to our customers, always.

Commitment to The Environment
Apart from the relevant statutory and regulatory requirements, we have been proactive in playing our part in protecting the environment. Strong emphasis is placed on the health and safety of its staff as well as environmental protection. Waste Management program have been actively practiced and raw material optimization has been a practice that contribute to our ISO 14000 certification and SONY Green Partner (GP) certification.
Specialized Processes To Fit Your Designs

06 Roll-cutting machine
07 Large format CNC routing machines
08 Auto guide hole-punching machine
09 Screen-printing machines
10 Air shower
11 Fully-automated screen-printing machines
12 Roll-to-roll auto slitter
13 Large format up-down hydraulic stamping machine
14 Laser cutting machine
15 Fully automated X-Y axis cutting machine
16 Slitting machines
17 Sub-assembly process (in controlled environment)
Electro-Mechanical Components

- Insulators for all flammability ratings
- O-rings, rubber foot and spacers
- Shock-absorption cushions and gaskets
- High-temp and high-electrical strength materials
- Open-cell and closed cell foams, foam-tapes and felts
- Customized double-sided adhesives and tapes
- EMI/RFI/ESD shielding
- Trimming, heat or cold forming, slitting, die-cutting and punching

Die-Cut Components (foams/felt/rubber) for Gaskets and Cushioning
- Anti-Vibration and Sound Absorption

Graphic Front Panel Overlays & Labels

EMI/RFI/ESD Shielding and Grounding

Die-Cut Adhesives & Insulators

Vacuum Cleaner Applications
Our Capabilities in **Advanced Printing**

- **Overlays & Labels**
  - Embossing/debossing
  - LCD, LED, clear or deadfront display windows
  - Selective UV texturing and hardcoats
  - Hot-stamping (mirror-like, hairline, glossy or matte finishes)
  - Warranty, warnings, electrical information, instructions and caution labels
  - Durable four-color CYMK process, halftones and/or spot colours (unlimited)

- **Automotive Appliqués**
  - Embossing/debossing
  - Trimming, heat or cold forming, slitting, die-cutting and punching

- **Remote Control Overlays**
  - 3-Dimensional Diamond-Cut
  - Nameplates & Badges

- **Printers & Video Conferencing**

- **Control Panels & Overlays**

- **Car Audio & Automotive Applications**
Solutions To Meet Your Every Need

- Customizing your design option
- Unlimited colours and/or four-color CYMK process and halftones
- Crystal clear/coloured or deadfront LCD/LED windows
- Selective UV or non-UV texturing
- Embossing/debossing
- EMI/RFI/ESD shielding
- Spacer and sub-panel
- Trimming, heat or cold forming, slitting, die-cutting and punching
- 100% functional testing
- Sub-panel assemblies available
- Wide range of wire harness solutions

Wide Range of **Product Categories**

- PMMA (Acrylic) Screen-Printed With CNC Routing & Mirror Finish
- Fax Machine
- Graphic Overlays
- Wire Harness
- Die-Cut Components
- Hand phones
- Labels
